Data Engineering Team Lead

Are you a seasoned Data Engineering professional with a proven track record in startup and mid-size company environments? We are seeking a dynamic and experienced individual to lead our Data Engineering team. Join us at DAALAB where innovation, flexibility, and client-centric solutions define our culture.

DAALAB is a cutting-edge data science company committed to delivering impactful solutions to our clients. We thrive on innovation, professional quality and a client-first approach. As we continue to grow, we are looking for a passionate and skilled Data Engineering Team Lead to drive our data initiatives to new heights.

Responsibilities:

- Lead and mentor a talented team of data engineers in designing, implementing, and maintaining robust data pipelines.
- Collaborate with cross-functional teams, including Data Science, Analytics, and Software Engineering, to understand and address client requirements.
- Drive the development and implementation of scalable and efficient data infrastructure solutions.
- Foster a culture of innovation, flexibility, and quick problem-solving within the Data Engineering team.
- Stay current with industry trends and emerging technologies to continuously improve data engineering practices.

Qualifications:

- Proven experience as a Data Engineer, with a background in startup and mid-size company environments.
- Demonstrated leadership skills, with the ability to inspire and guide a high-performing team.
- Expertise in designing and implementing scalable data pipelines and infrastructure.
- Strong programming skills in languages such as Python, Java, or Scala.
- Experience with cloud platforms (e.g., AWS, Azure, GCP) and big data technologies.
- Excellent communication skills, with the ability to articulate complex technical concepts to non-technical stakeholders.
- Educational background may vary: Bachelor's or Master's degree in Computer Science, Data Science, or other quantitative discipline, related fields.

What We Offer

- Opportunities for professional growth and development.
- A collaborative and innovative work environment.
- Flexibility with hybrid and remote work options.
- The chance to work on cutting-edge projects and make a real impact.

How to Apply:
Send your resume and a cover letter to sayhello@daalab.com with the subject line "Data Engineering Team Lead Application - [Your Full Name]". Applications will be accepted until 2024.02.09.
